Hampden County Jail and House of Corrections
Ludlow, Massachusetts
Design-build project with jail, house of corrections and pre-release section providing 1,110 beds for both male and female inmates. Also provides space for education, training, industrial and recreational activities, as well as administration, food and health services, and outdoor recreation.

Los Angeles Police Administration Building
Los Angeles, California
The new 500,000 sf police administration building houses administration and investigative operations, and features large assembly areas including a police commission hearing room, conference center, state-of-the-art command center, a 200-seat cafe, 700-car below-grade parking garage and 450-seat auditorium.

CCA Central Arizona Detention Center Phases III and IV
Florence, Arizona
Phase III contained two, 256-bed housing units, two covered recreation buildings, segregation unit and administrative support facility. Phase IV included one 256-bed housing unit, a covered recreation building and program services building.

Key Biscayne Police Station, Fire Station and Community Center
Village of Key Biscayne, Florida
Three buildings house city council chambers, the fire department, police and administrative buildings for the police department with secure sallyport and six holding cells, city administrators and building department, and a community center with underground parking garage.

Delaware Correctional Facility
Smyrna, Delaware
600-bed maximum security prison expansion in six housing units, new gatehouse, kitchen-dining facility, laundry, armory, visiting and administrative complex.

South Mississippi Correctional Facility
Greene County, Mississippi
Following the South Mississippi Correctional Facility Master Plan for the State of Mississippi, three projects were awarded at this 1,416-bed medium security state correctional facility. Project components included five, 240-man housing buildings, a 200-bed regimented inmate discipline program facility, a central laundry and kitchen to feed 3,000 inmates, and a support building for inmate services and medical facilities.
Santa Ana Police Administration Building
Santa Ana, California

The administrative and operational functions of the Santa Ana Police Department are housed in the new four-story administration building. The holding facility is a direct supervision detention facility containing 256 cells. Also included is a vehicle storage structure and pedestrian transfer tunnel connecting the holding facility with the intake and release center.

Ellis County Detention Center
Waxahacie, Texas

This competitive bid project included the construction of a 58,800 sf addition while keeping the existing facility operational. Extensive renovations to the existing building were also made. Multiple phase move-ins were required to keep the Sheriff's Department fully operational. The three-story steel frame and pre-cast hollow core plank structure included concrete masonry unit interior security partitions with an exterior brick façade.

Curran Fromhold Correctional Facility
Philadelphia, Pennsylvania

New 2,000-bed prison facility with four, 500-bed modular cell blocks and an administrative support building.

Worcester County House of Correction and Jail
Worcester, Massachusetts

This design-build project contained a 300-cell modular jail facility with administration, health services, food services, gymnasium and warehouse/garage.

Aventura Government Center, Police Facility and Cultural Center
Aventura, Florida

Five-story building housing administrative space, a council chambers auditorium, complete police facility with 10 secure holding cells and secure sallyport, various other office spaces, and a parking garage.

St. Charles Parish Correctional Facility
Hahnville, Louisiana

The project consisted of a 93,000 sf correctional facility which included a single-story administration area and four inmate pods with mezzanine levels. The inmate pods were divided into minimum security, medium security, maximum security and women’s pods. This 600-inmate facility is a state-of-the-art prison with sophisticated electronic control systems for detention equipment, video visitation and arraignment, security cameras and a wireless radio system.
Nassau County Correctional Center
East Meadow, New York

Design-build services for maximum security jail facility containing 832 prefabricated cells in four housing units, a service building housing administrative and support facilities with general visiting area, inmate intake, food services, medical facilities, library, classrooms and gymnasium, and site utilities and associated site work.

Pinal County Adult Detention Facility
Florence, Arizona

New 121,200 sf adult detention facility located on a master-planned County Judicial Complex for the Pinal County Sheriff’s Department. The 45-acre facility contains an 80,000 sf, four-level, 412-bed housing unit with a fenced-in recreation yard and visitation area; a single-level support services building with holding cells, booking facilities, court rooms, kitchen, library, medical unit and warehouse facilities; and a pre-engineered building shell.

Justin Sollohub Justice Center
Anniston, Alabama

New 57,500 sf facility will house the City of Anniston police department, jail, municipal court and related support functions.

South Woods State Prison
Bridgeton, New Jersey

The complex is comprised of 3,080 new beds in three individual pods serving a diverse population of long-term sentences. This design-build phased project interconnects the housing pods with general areas including a new power plant, administration building, intake facility, warehouse facility, maintenance and support facility, and a food processing and warehousing facility.

Northampton County Correctional Facility
Easton, Pennsylvania

Multi-phased project involving a new intake facility with the addition of a third floor to the work release building, and alterations to existing shower areas in two buildings; design and construction of a new three-story prison tower complex with 160 medium security beds and 70 female maximum security beds; installation of sprinkler and smoke evacuation system within the existing prison; and an additional three-level, 230-bed housing unit.

State Correctional Institution at Somerset
Somerset, Pennsylvania

In response to the Commonwealth of Pennsylvania’s decision to utilize public-private partnerships for new prison beds, our joint venture team was selected to design-build-finance-leaseback the new 1,000-cell correctional facility. The 13-building complex includes eight housing units, and support buildings for health services, dietary services, gym, training, warehouses and industries.
Talladega County Jail  
Talladega, Alabama

This design-build project includes a 320-bed addition to the county jail, performed while keeping the existing facility operational. Modifications are currently underway to the existing facility including the new booking and holding areas, as well as the Infirmary and padded holding areas. The structural system is a combination of load bearing masonry, structural steel, and elevated concrete.

North Broward Women’s Detention Center  
Pompano Beach, Florida

The new detention facility includes two, 4-story towers containing 1,000 beds and a central two-story administration building. A 70,000 sf kitchen/warehouse facility capable of producing several thousand inmate meals per day was also included.

Anne Klein Forensic Center  
Trenton, New Jersey

Built on a 15-month fast-track schedule, the complex provides maximum security facilities to house and treat inmates with mental illnesses. Configured in six independent pods, the patient rooms were constructed around common dayrooms to facilitate group activities.

Federal Medical Center  
Ft. Devens, Massachusetts

The Federal Bureau of Prison’s project included the renovation of the 132-bed Cutler Hospital including upgrading for security uses, a new 150-bed psychiatric hospital, a 72-cell special housing facility, a 128-cell medium security housing, two, 128-dorm low security housing, and support buildings for administration, religious service, recreation, and a central utility plant.

Federal Correctional Institution  
Forest City, Arkansas

The project consisted of approximately 450,000 sf of buildings located on a 334-acre site. The work included three general buildings, the combined facilities complex, administrative building, two warehouse buildings, vehicular sally port, site utilities and final sitework. This 2,200-bed minimum-medium security correctional facility was completed in 19 months.

Green County Maximum and L-2 Minimum Security Prison  
Philadelphia, Pennsylvania

Construction management services for 25-building complex completed in two phases involving a new 2,000-bed maximum security prison and a new 200-bed L-2 minimum security prison.

About Tutor Perini Corporation

Tutor Perini Corporation is a leading building and civil construction company offering diversified general contracting and design-build services to private clients and public agencies. The Company has provided construction services since 1894 and has established a strong reputation within our markets by executing large complex projects on time and within budget while adhering to strict quality control measures.

Tutor Perini Corporation offers general contracting, preconstruction planning and comprehensive project management services, including the planning and scheduling of the manpower, equipment, materials and subcontractors required for a project. We also offer self-performed construction services including excavation, concrete forming and placement, steel erection, electrical and mechanical services, plumbing and HVAC.

Core competencies and resources enable the Tutor Perini Building Group to meet the needs of specialized niche markets. Our building operations focus on large, complex projects with aggressive schedules in the sports, hospitality and gaming, transportation, healthcare, education, corrections and government markets.

The Building Group’s Operations include Anderson Companies, James A. Cummings, Inc., Keating Building Company, Rudolph and Sletten, Inc., and Tutor Perini Building Corp. Prior to September 2008, the building entities were wholly-owned subsidiaries of Perini Corporation, a 118-year-old publicly held company. On September 8, 2008, Perini Corporation completed a merger with Tutor-Saliba Corporation. Today, Tutor Perini Corporation is traded on the New York Stock Exchange. Capitalizing on core strengths, Tutor Perini provides the individual building companies enhanced opportunities for growth through increased size, scale and management capabilities; immediate access to multiple geographic regions; and increased bonding capacity.
